The Director General
Department of Meteorology
Colombo, Sri Lanka

Dear Sir/Madam,

Subject: Request for Historical Rainfall Data for Academic Research Purposes

We are a group of final-year undergraduates from the Faculty of Computing, Sri Lanka Institute of Information Technology (SLIIT), currently conducting a research project titled “Integrated Flood and Landslide Risk Assessment and Response System for Sri Lanka” (Project ID: J26-IT-334), carried out under the Center of Excellence for Artificial Intelligence (CEAI).

As part of the landslide early-warning component of this project, we require historical rainfall data to develop and validate a prediction model. We kindly request the Department of Meteorology to provide daily/monthly rainfall data for the Ambagamuwa, Kothmale, and Walapane Divisional Secretariat Divisions in the Nuwara Eliya District, covering the period from 2006 to 2026 or the longest range available.

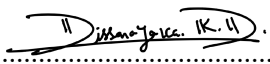

This data will be used strictly for academic research purposes and will be duly acknowledged in our project documentation. We would be grateful if you could also advise us on any formal procedures, application forms, or fees required to process this request.

Thank you for your kind consideration. We look forward to your favorable response.

Yours faithfully,

.....
Bagya R.M.S. (IT23394124)
Undergraduate
Faculty of Computing, SLIIT
